INDEPENDENT AUDITORS' REPORT

To the Stockholder Provident Securities, Inc. D/B/A Provident International Securities, Inc. New York, New York

We have audited the accompanying statement of financial condition of Provident Securities, Inc. D/B/A Provident International Securities, Inc. as of December 31, 2003. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Provident Securities, Inc. D/B/A Provident International Securities, Inc. as of December 31, 2003, in conformity with accounting principles generally accepted in the United States of America.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

Provident Securities, Inc. d/b/a Provident International Securities, Inc. (the Company), incorporated on December 11, 1998, in the State of Delaware, is a broker-dealer acting in an agency capacity, buying and selling securities for its customers and charging a commission, placing of private placements of securities, selling variable life insurance and annuity products and distributing fixed income securities issued by countries in Central and South American and Mexico to U.S. investors, as well as products that utilize Central American, South American and Mexican debt instruments as their underlying securities. The Company is a wholly owned subsidiary of Provident Group Limited (the Parent).

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Securities Transactions

Securities transactions, along with related commission income and clearing costs are reported on a trade date basis.

Income Taxes

Income taxes are accounted for under Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes". Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced to estimated amounts to be realized by use of a valuation allowance (Note 4).

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

NOTE 2. ECONOMIC DEPENDENCY

The Company's working capital has been obtained from funds provided by its Parent. In the absence of generating positive cash flow from operations, the Company is dependent upon the continued availability of funding from its Parent or, in its absence, alternative sources of funding would be required to support operations.

NOTE 3. NET CAPITAL REQUIREMENTS

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission, which requires that "Net Capital", as defined, shall be at least the greater of \$5,000 or one-fifteenth of "Aggregate Indebtedness", as defined. At December 31, 2003, the Company's "Net Capital" was \$28,679, which exceeded requirements by \$23,679. The ratio of "Aggregate Indebtedness" to "Net Capital" was 0.39 to 1 at December 31, 2003.

NOTE 4. INCOME TAXES

The Company has a net operating loss carryforward of approximately \$1,162,000 for income tax purposes, which expires through 2023. As a result of this net operating loss, the Company has recorded a deferred tax asset of approximately \$409,000, which is offset by a valuation allowance of the same amount. Realization of the deferred tax asset is dependent on generating sufficient taxable income in the future. The amount of the deferred tax asset considered realizable could change in the near term if estimates of future taxable income are increased.

Deferred tax assets, net of a valuation allowance, are recorded when management believes it is more likely than not that tax benefits will be realized. Management's valuation procedures consider projected utilization of deferred tax assets prospectively over the next several years, and continually evaluate new circumstances surrounding the future realization of such assets.

NOTE 5. DUE FROM RELATED PARTIES

The Company has advanced funds to related parties to support their operations. Amounts due from these related parties totaled to \$281,898 at December 31, 2003. These balances do not accrue interest and have no defined repayment terms.

NOTE 6. LEASE COMMITMENTS

The Company leases office equipment under various non-cancelable operating leases. The approximate future minimum lease payments under these leases with initial or remaining terms of one year or more at December 31, 2003 amounts to \$1,140 for 2004.

Additionally, the Company paid rent to a related entity for its facilities in New York City on a month to month basis.

NOTE 7. CONTINGENCY

During 2003, the Company was informed that the Florida Office of Financial Institutions and Securities Regulation (FOFISR) uncovered alleged violations of the Florida Statutes by their Miami, Florida office. During 2002, the Company closed this office. The Company and its attorney believe the claims are without merit and have been attempting to negotiate a mutually agreeable settlement. The outcome of this matter and potential liability, if any, cannot be determined at this time.

NOTE 8. RISK CONCENTRATIONS

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

NOTE 9. INCOME INTEREST - UNAUDITED

The Company obtained the rights to 5% of the net income of Oasis LLC, a AAA rated special purpose entity and National Association of Securities Dealers (NASD) registered broker dealer dedicated to government securities repurchase matched book short-term loans/borrowings as an investment banking fee. The Parent has valued this investment at \$840,000 (implied market value minus a 30% hair-cut). This item cannot be included in the accompanying statement of financial condition of the Company as accounting principles generally accepted in the United States of America does not allow interests in future cash flows to be recognized as an asset due to its contingent nature. The Parent believes that the Company's interest in 5% of the net income of Oasis LLC has an intrinsic and a market value, and that such interests are appropriately valued at \$840,000.
